ABOUT ME

Junior Frontend Developer i take my courses from coursera IBM and META
I have experience in building responsive and user-friendly web applications. I am skilled in translating design mockups into clean, semantic HTML and CSS. I am proficient in JavaScript and frameworks like React to implement interactive features and functionality. I am enthusiastic about staying up-to-date with the latest front-end technologies and best practices. I have excellent problem-solving and debugging abilities to ensure cross-browser and cross-device compatibility. I am passionate about creating elegant, intuitive user experiences. I am eager to collaborate with designers and backend developers to deliver high-quality web applications that meet business requirements. I am seeking opportunities to grow my skills and take on increasingly complex projects.
